3rd October 2011

To: Parents/Guardians of pupils in 4th Class

Dear Parents,

I will take pupils after school on Tuesdays from Halloween to Christmas starting on Tuesday 13th November to teach them a computer programming language called Scratch. Scratch is a visual programming language that makes it easy to create interactive stories, animations, games, music, and art and share these creations on the web. It also teaches computational thinking and problem solving using a simple-to-use, yet powerful, building block approach to software development.

This programme is designed for pupils with a good grasp of Maths and who enjoy a challenge. To get the best use of the program pupils will need to install it on their own computer and work with it several times a week. Internet access is not required as I will provide the program on CD. Should you wish your child to participate please complete the form overleaf and return to the school.

Sincerely,

(Principal)

Participation in Scratch Computer Course
(November & December 2012)

Pupil's Name: _____

I wish my child to participate in the Scratch Course each Tuesday in November & December from 2.30pm – 3.25pm starting on Tuesday 13th November 2012.
